

Sage Academy Face Mask/Coverings Policy

Face Mask/Coverings

- All students, staff and visitors must wear recommended cloth face coverings when inside school buildings, anywhere on school grounds, and at school related activities, whether indoor or outdoor where 6 feet of social distancing between staff and students is not possible, or when eating.
- Any student who has difficulty breathing or who is incapable of physically removing the face covering on his/her own will not wear cloth face coverings, and alternate methods of protection will be discussed by parents and staff.
- Cloth masks *should not* be worn when students are engaging in physical activity. Students who refuse to comply with the safety protocols adopted for in-person learning will be assigned to an online learning program pursuant to A.R.S. 15-841(F).
